THE MIRZAKHANI ISSUE

Roberto NATALINI

Director CNR-IAC (Rome), Comics&Science editorial direction

Andrea PLAZZI

Comics&Science editorial direction

Barbara NELLI

University of L'Aquila

SILVIA ZICHE e Davide LA ROSA

Graphic novelists

Presentation of the UNDER THE SIGN OF TORUS, published by
Comics & Science, the CNR Edizioni series.

The graphic novel, by Silvia Ziche and Davide La Rosa, is contained
in the volume "THE MIRZAKHANI ISSUE", which presents the life and
research of Maryam Mirzakhani, the first woman to receive the
prestigious FIELDS MEDAL in 2014, the highest recognition for those
mathematicians.

Is it possible to present science in comics?

Is it true that women can do math at the highest levels?

From 6:30 to 8 p.m. in the Cloister Room of the
Faculty of Civil and Industrial Engineering -
Sapienza University of Rome

Maryam Mirzakhani as an outstanding mathematician deserved special consideration in this meeting.

Cartoonist and illustrator Gabriele Peddes will comment in real time the speeches of the speakers and fellow cartoonists, with a display of "scribing" combining comics, illustration and visual communication into a graphic summary of the main moments.
