## Convegno congiunto ACNP/NILDE: ecosistemi per la ricerca

Trieste, 22-23 maggio 2014

Aula Magna - Università degli Studi di Trieste

## Raccolta delle Presentazioni

## Convegno congiunto ACNP/NILDE: ecosistemi per la ricerca

Il secondo convegno congiunto ACNP / NILDE ospitato nel 2014 dall'Università di Trieste, sotto gli auspici della stessa Università e degli altri enti di ricerca del Friuli Venezia Giulia, affronta in un'ottica internazionale i temi del rapporto tra cataloghi collettivi e servizi interbibliotecari e il più generale ambito della ricerca scientifica. ACNP e NILDE possono essere considerati un vero e proprio ecosistema. Le biblioteche e i bibliotecari collaborano tra di loro in maniera reciproca e secondo modalità interconnesse, offrendo agli utenti servizi sempre più evoluti e dinamici. Questo ecosistema, in quanto sistema aperto, mette i propri servizi a disposizione del più vasto ambiente della ricerca scientifica. Il convegno di Trieste ha offerto l'occasione di investigare e proporre soluzioni, interconnessioni e relazioni nuove e più proficue.

Nell'ambito del convegno sono state presentate alcune rilevanti esperienze internazionali in tema di servizi interbibliotecari e cataloghi collettivi e sono stati illustrati gli sviluppi tecnici e le prospettive di ACNP e di NILDE.

---

### Comitato Scientifico

**Elena Bernardini** Università degli Studi di Milano

**Stefania Biagioni** Consiglio Nazionale delle Ricerche

**Orietta Bonora** Università di Bologna

**Moreno Curti** IRCCS Policlinico San Matteo

**Silvana Mangiaracina** Consiglio Nazionale delle Ricerche

**Anna Perin** Consiglio Nazionale delle Ricerche

**Vincenzo Verniti** Università di Bologna

**Maurizio Zani** Università di Bologna

# PROGRAMMA

## 22 Maggio 2014 - Prima Giornata

**Stefanie Moser** - *The Quest for Documents: Catalogs, Inter-Library-Loan and Document Delivery in Austria*

**Hans-Joerg Lieder** - *The German 'Union Catalogue of Serials' and its interlibrary service*

**Smilja Pejanovič, Matjaž Musek**- *Resource Sharing Policy and Practice in Slovenia*

**Peter Seangill Bae** - *Resource Sharing in the U.S. Academic Libraries: Trends and Future*

**Leonidas Pispiringas, Claudine Dervou, Asimakis Boutlas** - *Using NILDE to provide Public Organizations in Greece with articles from HEAL-Link's electronic subscriptions*

**Guido Badalamenti, Antonio Scolari, Renato Tamburrini** - *Il progetto Worldcat/OCLC del consorzio CIPE*

**Alessandro Andretto, Mauro Apostolico** - *Il Centro di Documentazione Scientifica IOV come ponte tra sviluppo di sistemi informativi e valutazione della Ricerca*

**Elisabetta Marinai, Ginevra Peruginelli** - *La banca dati DoGi e la condivisione dei dati giuridici: nuovi orizzonti*

**Elena Giglia, Marialaura Vignocchi** - *Biblioteche ed editoria periodica elettronica ad accesso aperto: servizi a valore aggiunto*

## Tavola Rotonda:

**Ivana Truccolo** - *I servizi bibliotecari e la valutazione della ricerca: una collaborazione possibile?*

## **23 Maggio 2014 - Seconda Giornata**

**Vincenzo Verniti** - *Sviluppi tecnologici e problematiche operative di ACNP*

**Silvana Mangiaracina, Ornella Russo, Alessandro Tugnoli, MartaPutti** - *Sviluppi tecnologici e problematiche operative di NILDE*

**Annalisa Bardelli, L. Bernardis, Caterina Colombo, Luisella Consumi, Antonella Cossu, Ornella Salvioni** - *Esperienza di interoperabilità tra servizi bibliotecari tramite protocollo ISO-ILL. Colloquio standard ILL-SBN/Aleph e ILL-SBN/Sebina.*

**Cristina Cocever, Marco Chiandoni** - *La sopravvivenza delle biblioteche nell'era digitale richiede una mutazione genetica?*

**Simonetta Righi, Maurizio Zani** - *Se vuoi tenerti il cliente, rendigli la vita facile*

**Monica Bucciarelli, Vanessa Maria Mancini, Lyda Lanciaprima** - *Da Baco a Farfalla: metamorfosi di una biblioteca*

**Laura Garbolino** - *Abbiamo UNITO le risorse elettroniche: ACNP e NILDE in Ateneo*

**22 Maggio 2014**

**Prima Giornata**

Convegno ACNP/NILDE:  
**ecosistemi per la ricerca**

**Trieste**  
**22-23 maggio 2014**

# **The Quest for Documents**

**Catalogues, Inter-library-loan and Document Delivery in Austria**

by  
**Mag. Stefanie Moser**

# Danube University Krems - Library

Library comprises about 70.000 books and printed magazines

Medicine, Health & Social Services

Economics and Business Management

Laws, Administration and International Affairs

Education, Media and Communication

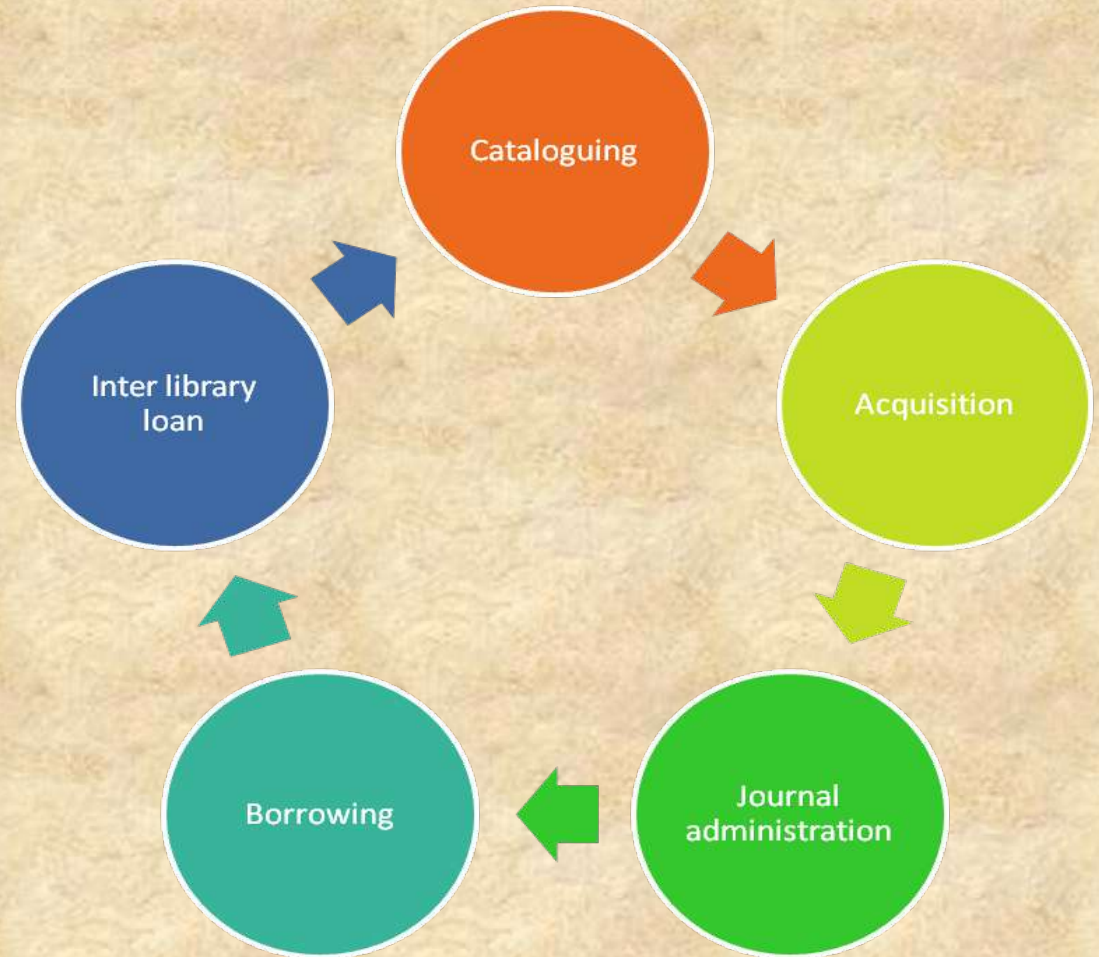

Arts, Culture and Building

European Documentary Center

Online and printed publications from the European Union

# Aleph

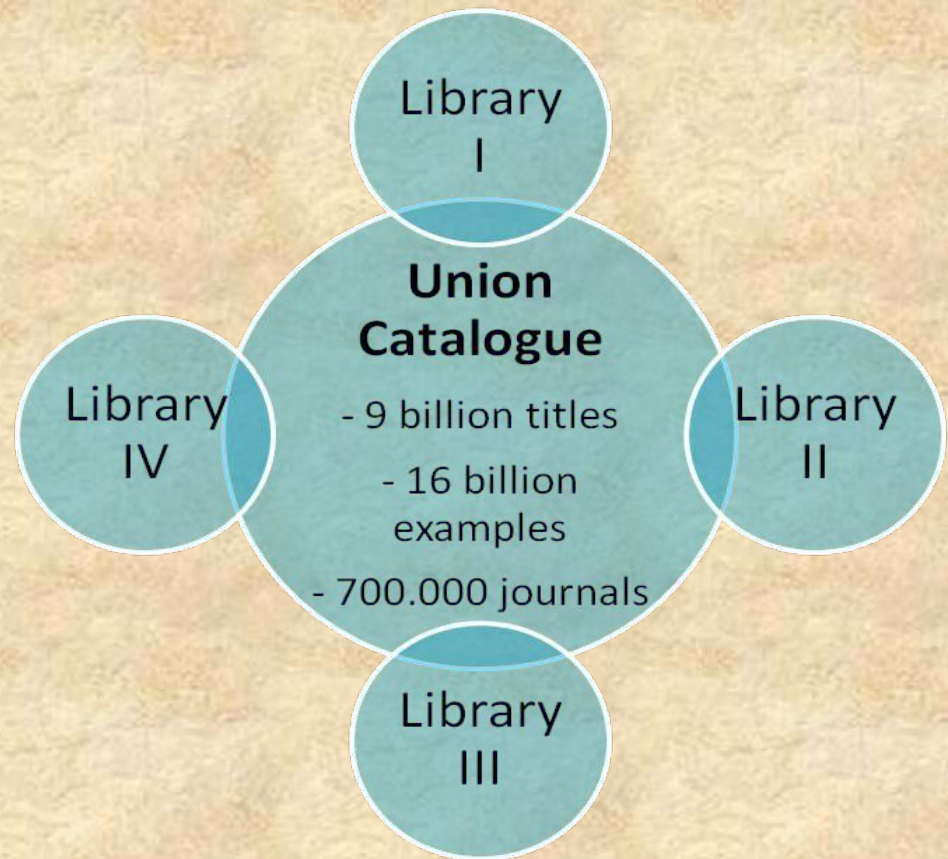

- Administration Software from the Ex-Libris Company
- Makes cooperation between libraries in Austria possible
- Aleph Sharing System

# Austrian Library Bond & Union Catalogue

- Combination of about 80 libraries
- Cataloguing in the union catalogue
- can research literature in all libraries at the same time
- Important for ILL

# The Online Catalogue

The screenshot shows the website of the Donau-Universität Krems library. The page is titled "Bibliothek" and features a navigation menu with options like "DEUTSCH", "ENGLISH", "SUCHE", "UNIVERSITÄT", "FAKULTÄTEN", "STUDIUM", "SERVICE", "FORSCHUNG", and "AKTUELLES". A sidebar on the left lists various services, with a red arrow pointing to "Online - Ressourcen". The main content area includes a "Bibliothek" header, a description of the library as a public scientific library, and a section for "Öffnungszeiten" (opening hours) with a table. A red arrow points to the "Öffnungszeiten" section. Below the table, there are dates when the library is closed. Another red arrow points to the "Online-Katalog und BenutzerInnenkonto" section, which lists services like "Online-Katalog und Konto", "Dienstleistungen", "EDZ", "E-Learning Center", and "News". A final red arrow points to the "Kontaktdaten" section, which provides contact information including phone, email, and address.

**Bibliothek**  
Donau-Universität Krems

Als öffentliche wissenschaftliche Bibliothek steht die Bibliothek der Donau-Universität Krems sowohl Studierenden und AbsolventInnen unserer Universität als auch externen BenutzerInnen zur Verfügung.

**Öffnungszeiten**

Montag	09:30 - 13:30
Dienstag - Freitag	09:30 - 21:00
Samstag	10:00 - 14:00
Sonntag	geschlossen

Am 18. April 2014 (Karfreitag) schließt die Bibliothek bereits um 12:00.  
An den folgenden Tagen bleibt die **Bibliothek geschlossen**:

19. April 2014 (Karsonntag)  
21. April 2014 (Ostermontag)  
01. Mai 2014 (Staatsfeiertag)

# Recommendation for the settlement of Inter library loan and Document Delivery in Austria

- Reciprocity: not only take but also grant
- Orders needs specifying minimum criteria
- Users must pay a procurement fee
- Report back if an order couldn't be fulfilled
- Copyright is to be noted
- Prompt handling
- Accompanying letter to each order
- Liability
- Compensation for lost or damaged books
- Use literature in accordance with regulations

# Pros & Cons

## Cons

- Different fees by loan and shipment
- Different duration of the borrowing
- Different order methods
- Different shipping times
- Costs for licenses

## Pros

- Offer of literature expanded enormously
- Status of library and University is highlighted
- Competitive in international comparison
- Satisfied students and scientific staff

# Ideas for improvement

- ordering processes should be standardized
- more transparency in the ordering process for the user (when can the book be received ect.)
- Better user training in dealing with databases
- more advertising for databases so that the cost for licences be worth it

# Thank you for your attention!!!

# **The German Union Catalogue of Serials and its interlibrary services**

**Hans-Jörg Lieder**

**Head of the Department of Bibliographic  
Services**

**Staatsbibliothek zu Berlin - PK / Berlin State**

## WHAT

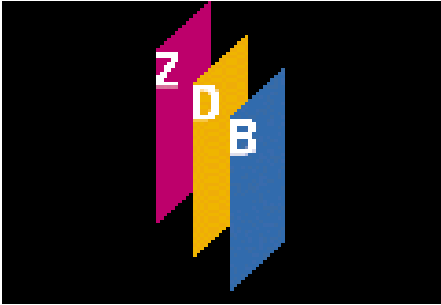

German Union Catalogue of Serials =  
Zeitschriftendatenbank (ZDB)

See: <http://www.zeitschriftendatenbank.de/>

(One of) the world's largest dedicated database(s) for metadata about serials, mainly journals and newspapers (and a whole lot of other stuff);

Run and maintained jointly by the Berlin State Library (SBB) and the German National Library (DNB).

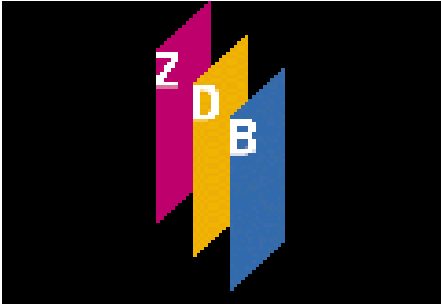

## Facts & Figures

- bibliographic records (title level): >1,7 million
- corp. authority records used: >415,000
- person authority records used: >7,600
- number of holdings information: >13,6 million
- number of participating institutions: >4,400  
(mainly, but not exclusively libraries in Germany and Austria)

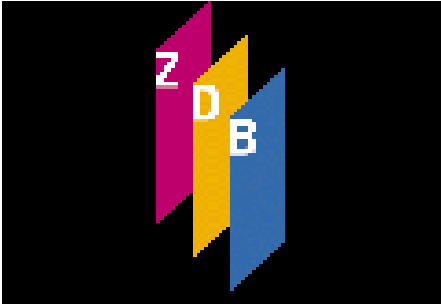

## Services 1

- cataloguing environment for more than 4,400 institutions including online access to authority data (OCLC CBS, Win IBW cataloguing clients PLUS simplified WebCat cataloguing)
- large editorial teams in SBB look into data correctness and standard conformity (<35 staff members)
- technical teams in DNB ensure availability of data via technical interfaces

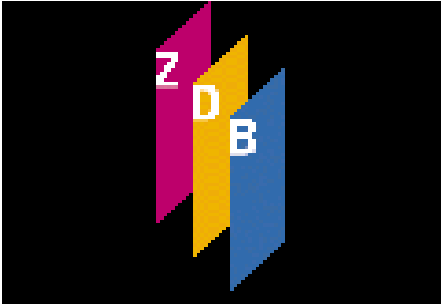

## Services 2

- database as a whole has a web user interface for search and retrieval
- distribution of ZDB-data to the German and Austrian library networks and from there to individual libraries, incl. interlibrary loan and licence information/access URLs to online resources
- support of large scale (digitisation) projects by providing hard and reliable data to other libraries, e.g.:

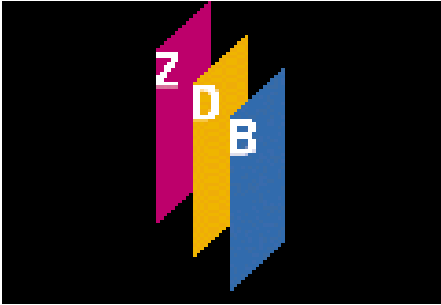

## Services 3

- VD 18, i.e. digitisation of all printed works of the 18th century (ZDB provides holdings information re. serials to identify the library that is best suited for digitisation)

by its - Newspapers: national digitisation scheme funded by German Research Agency (ZDB currently optimises its user interface (visualisations!) to allow for easier identification of resources to be digitised)

- national licencing scheme (ZDB is the place of maintenance for all such licence information about serials)

## Services 4

- areas of special collections funded by the German Research Foundation (ZDB provides statistical data to collecting libraries)

Creation of a «European Registry of Digitised Newspapers» (metadata only) in the framework of the Europeana Newspapers Project (See:

<http://www.europeana-newspapers.eu/>)

are **Anything less than ideal?** ~~compensated~~ when

updating information per batch, especially licence information, and spreading these out to the library networks

- necessary agreements within the ZDB community frequently take too much time
- Cooperation with another, much smaller German network for electronic journals (Elektronische Zeitschriftenbibliothek - EZB)
- variety of library networks underwent a critical evaluation and was deemed to be impractical and overly

## Future scenarios

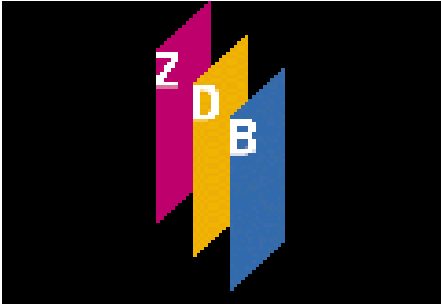

- some German library networks are currently trying to jointly transfer all cataloguing activities into the new cloud systems of OCLC and ExLibris

- some German library networks will not follow this path at this point of time and maintain their traditional workflows

ZDB will try to maintain its unique qualities (e.g., commonly used standards of cataloguing; deduped title level records; persistent, globally used identifiers for title level records; curated, homogeneous data; use of authority data and controlled vocabularies) independently of technical platforms.

# Thank you very much!

## Inter-library Loan (ILL) and Document Delivery (DD)

In our view, there are 3 crucial technological leaps that shaped ILL & DD:

- **Photocopying** technology on plain paper
  - Emergence of **union catalogues** (and later OPACs)
  - Emergence of **e-journals/e-sources**
- 

Convegno ACNP/NILDE:  
**ecosistemi per la ricerca**

 **ACNP**  
Catalogo Italiano dei Periodici

 **NILDE**  
National Inter Library Document Exchange

**Trieste**  
**22-23 maggio 2014**

## **ILL & DD – development and evolution – Step 1**

*ILL & DD always played an important part in the national library system:*

- scarce resources & hard currency not easily obtainable
- language factor - most of important inf.sources published abroad and in other languages
- sharing as part of social fabric
- library system & networking coordinated by a few large libraries with professional & skilled librarians who understand benefits of ILL
- influential professional association (Slov.Soc.of Professional Librarians)
- university-level professional training in librarianship established in early 1960s
- national standards for special and univ. libraries stress the role of ILL
- photocopying becomes affordable and available

Trieste  
22-23 maggio 2014

## ILL & DD – development and evolution – Step 2

*Important stepping stones to the present ILL & DD:*

- early 1960s NUK starts union card catalogue of foreign books and journal titles in Slovenian libraries, CTK starts compiling union catalogue of foreign science & technology periodical titles in Slovenian libraries
- 1977, first printed union list of foreign periodical titles is published in a book format (subsequent updates follow)
- some special/research libraries/documentation centres start to participate in specialised international databases (CANCER, INIS, etc.)
- late 1970s libraries start to entertain the idea of co-operative union catalogue, while at the same time several univ. & special libraries computerise their catalogues
- due to scarcity of hard currency, inter-library cooperation for co-ordinated subscriptions to foreign language literature/databases becomes a “hit”

Trieste  
22-23 maggio 2014

## ILL & DD – development and evolution – Step 3

### *The birth of COBISS and its role in ILL & DD:*

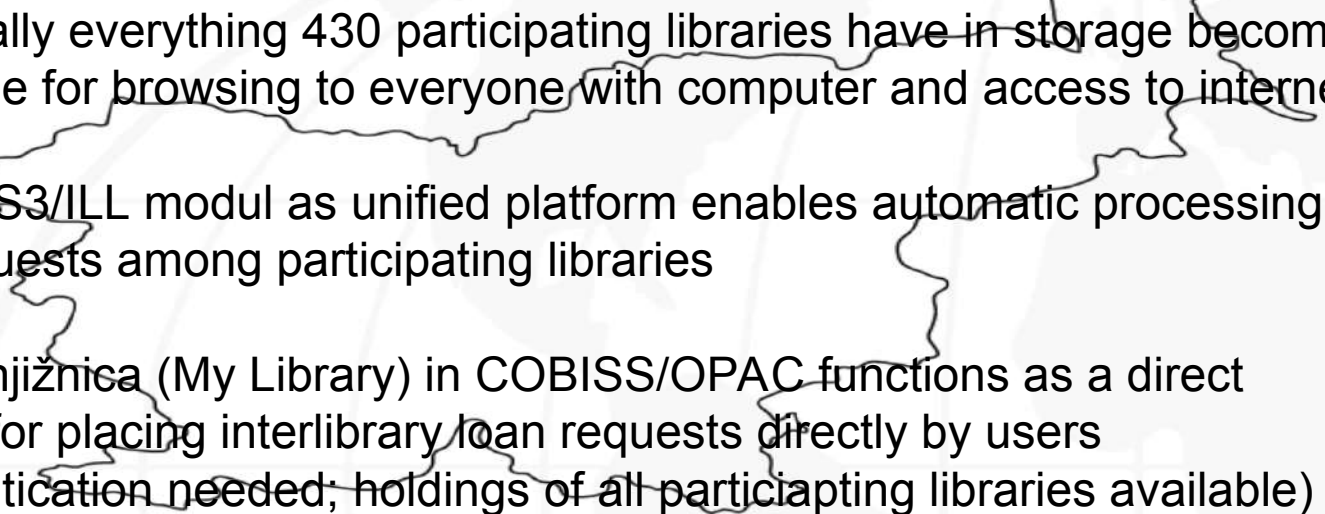

- Late 1986 IZUM entrusted with the task to develop application to manage union catalogue COBISS
- UNIMARC set of standards selected for record encoding (COBIB = Co-operative Online Bibliographic Information on Books gets defined)
- mid-1990s participating libraries start downloading data on their holdings
- all other integrated library system modules are gradually developed
- end-1990s COBIB expanded by merging records on books and journals with records on component parts (articles, book chapters, conference papers, etc.)
- COBISS/OPAC becomes ubiquitous on every library computer screen

Trieste  
22-23 maggio 2014

## ILL & DD – development and evolution – Step 3 (cont.)

*The birth of COBISS and its role in ILL & DD:*

- 
- practically everything 430 participating libraries have in storage becomes available for browsing to everyone with computer and access to internet
  - COBISS3/ILL modul as unified platform enables automatic processing of ILL requests among participating libraries
  - Moja knjižnica (My Library) in COBISS/OPAC functions as a direct button for placing interlibrary loan requests directly by users (authentication needed; holdings of all participating libraries available)

# COBISS/OPAC - entry screen

The screenshot shows the COBISS/OPAC entry screen in a web browser. The browser's address bar displays [www.cobiss.si/cobiss\\_eng.html](http://www.cobiss.si/cobiss_eng.html). The page features a blue header with the COBISS.SI logo and the text "Co-operative Online Bibliographic System & Services". Below the header is a navigation menu with links for SEARCH, BIBLIOGRAPHIES & SICRIS, OTHER SERVICES, About COBISS.SI system, and COBISS.Net. A language selector is set to "english".

The main content area is divided into several sections:

- REFERENCE SERVICE ASK A LIBRARIAN:** A box with a question mark icon and text: "Need information? Ask a librarian. You will receive an answer in real time via live chat or by e-mail within 24 hours."
- Virtual library of Slovenia:** A large section with the text "Enter COBISS/OPAC" and "ONE-STOP access to information from over 430 Slovenian libraries (140,000 links to e-resources, 2.2 million books, 1.5 million articles, 100,000 magazines, 100,000 CDs/DVDs etc.)". It includes a search input field with the placeholder "Enter search term" and a "FIND" button.
- COBISS Conferences:** A section titled "COBISS Conferences" with a sub-header "CONFERENCE COBISS 2011" and text: "19th COBISS conference postponed to 2014".
- Organizacija znanja (OZ):** A section titled "Organizacija znanja (OZ)" with text: "Professional journal of the COBISS system" and a link to "Volume XVIII, number 2013/1-4".
- Bibliographies & SICRIS:** A section with a magnifying glass icon and links: "Personal Bibliographies", "SICRIS", and "Slovenes in WoS & Scopus".
- My library (COBISS/OPAC):** A section with a magnifying glass icon and links: "View material on loan", "Renew loan periods", and "Reserve material", with an "Enter" button below.
- Most read books:** A section with a magnifying glass icon and a link to "Most read books".
- Frequently asked questions:** A section with a magnifying glass icon and a link to "Frequently asked questions".
- Slovenian Libraries:** A section with a magnifying glass icon and links: "COLIB.SI - Data on Slovenian libraries" and "Home Pages of Slovenian Libraries".
- Participating Libraries:** A section with a magnifying glass icon and links: "List of Libraries", "New members:", "School of Economics Celje", "Kindergarten Šentjur", and "UP University Library".
- Users' Group Meeting:** A section with a magnifying glass icon and text: "UNIMARC 2014 4th UNIMARC User's Group Meeting 14 MAY / IZUM / MARIBOR".
- NEWS:** A section with a magnifying glass icon and text: "25 Apr 2014 Installation of the COBISS3 V5.3-06 software and the COBISS3/Cataloguing User Manual on the Training Portal announced for the period from 6 to 9 May 2014" and "24 Apr 2014 Installation of Java V1.7". A link to "News archive" is provided below.

The footer of the page includes the IZUM logo, the copyright notice "© 1997-2014 IZUM", and the contact information "Call Centre: +386 2 2520 333". The Windows taskbar at the bottom shows the Start button and several open applications, including Microsoft Outlook, COBISS.SI, COBISS3, Microsoft Excel, and a folder named "D:\Matjaz\Krnj\Arts&...", along with the system clock showing 14:33.

# COBISS/OPAC – view on available sources

The screenshot displays the COBISS/OPAC website interface. At the top, the browser address bar shows the URL [www.cobiss.si/scripts/cobiss?ukaz=getid&lani=en](http://www.cobiss.si/scripts/cobiss?ukaz=getid&lani=en). The page header includes the COBISS.SI logo, the text "Virtual library of Slovenia", and the IZUM logo. Navigation links for "Databases", "Search", "Info", and "My library" are visible. The main content area is divided into four sections:

- The union bibliographic/catalogue database:** Features a graphic with the text "COBIB.SI" and "records: 4.417.677". Below the graphic, it states: "Data contributed by over 430 Slovenian libraries (140,000 links to e-resources, 2.2 million books, 1.5 million articles, 100,000 journals, 100,000 CDs/DVDs, etc.)".
- Local databases (catalogues) of libraries:** Lists several categories: [The National Library](#), [University and academic libraries](#), [Special libraries](#), [Public libraries](#), [School libraries](#), and [Libraries outside Slovenia](#). Below the list is a search input field labeled "Library:" with a "FIND" button and the text "All libraries: 432 (enter place, acronym, name or library code)".
- Other databases in COBISS.SI system:** Lists links to [COLIB.SI](#) (data on Slovenian libraries), [CONOR.SI](#) (authority file for personal and corporate names), [SGC](#) (.COBISS.SI General List of Subject Headings), [CORES.SI](#) (serials: Editors and others), and [ELINKS.SI](#) (e-publications with records in COBIB.SI).
- Other information resources:** Lists links to [Impact factor for journals from the Journal Citation Reports \(JCR\) database](#), [Impact factor for journals from the Source Normalized Impact per Paper \(SNIP\) database](#), [Contents pages of scientific journals SwetScan](#), [Library of Congress Name Authority File - LC/NAF](#), [OCLC databases - FirstSearch Service](#), [Selected catalogues of other foreign libraries](#), and [Other specialised databases](#).

At the bottom of the page, there is a navigation bar with links: [↑ TO TOP](#), [Databases](#), [Search](#), [Information](#), [My Library](#), and [Exit](#). The footer contains the text: "CONDITIONS OF USE | COBISS/OPAC, V6.1 | Any suggestions? Submit them to: [cobissuser@izum.si](mailto:cobissuser@izum.si) | © IZUM, 1997-2014". The Windows taskbar at the bottom shows the Start button and several open applications: "Inbox - Microso...", "COBISS/OPAC ...", "COBISS3 [v4\_o...", "Microsoft Excel...", "D:\Matjaz\Krnj\...", "Microsoft Powe...", and the system clock showing "14:48".

## ILL & DD – development and evolution – Step 4

### *Emergence of electronic journal aggregators:*

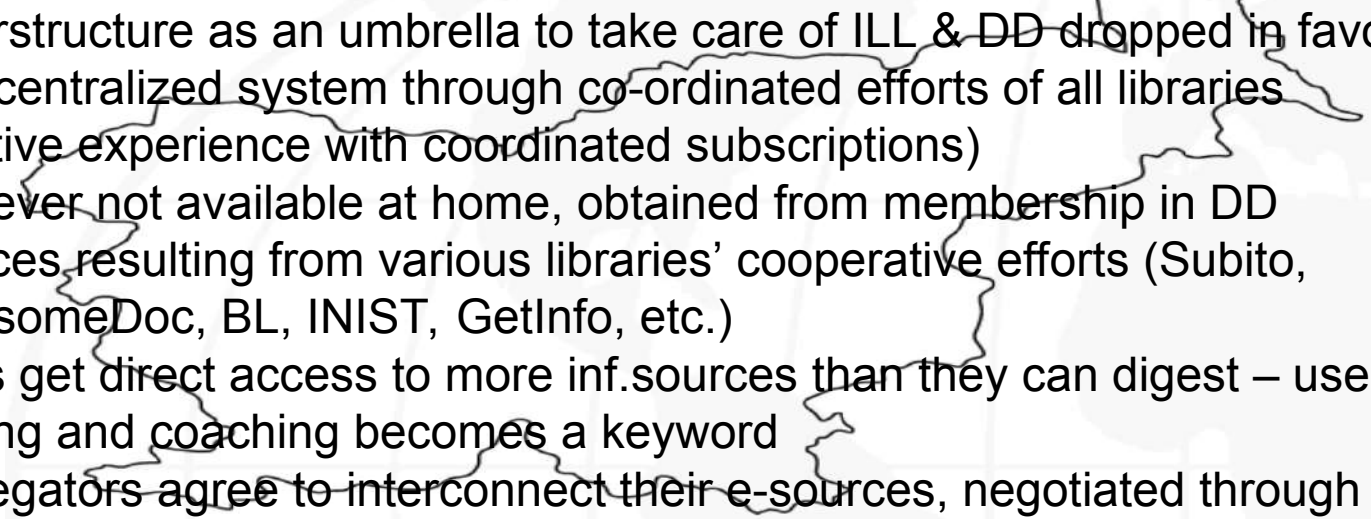

- beginning of 2000s, e-journals become more and more available, publishers start offering first package deals (SpringerLink, Elsevier)
- first consortia to share costs and secure broader availability of e-sources
- gradually, libraries spend more money on e-sources than on paper editions; public funds (ARRS) focus more on e-journals to secure broader access to scientific output; books start moving to e-platform
- consolidation in publishing industry: megaPublishers are born
- consortia, not ministries, negotiate directly with aggregators
- ILL & DD start moving from paper to electronic

Trieste  
22-23 maggio 2014

## ILL & DD – development and evolution – Step 5

*Decisions that shaped present organization of ILL & DD:*

- 
- superstructure as an umbrella to take care of ILL & DD – dropped in favour of decentralized system through co-ordinated efforts of all libraries (positive experience with coordinated subscriptions)
  - whatever not available at home, obtained from membership in DD services resulting from various libraries' cooperative efforts (Subito, LoansomeDoc, BL, INIST, GetInfo, etc.)
  - users get direct access to more inf.sources than they can digest – user training and coaching becomes a keyword
  - aggregators agree to interconnect their e-sources, negotiated through library consortia, to our ILL & DD set-up (<GET ARTICLE> button)

# PRIDOBI ČLANEK (Get article) button – the case of ScienceDirect®

The image shows a screenshot of a web browser displaying a ScienceDirect article page. The browser's address bar shows the URL [www.sciencedirect.com/science/article/pii/095671519500096E](http://www.sciencedirect.com/science/article/pii/095671519500096E). The page header includes the ScienceDirect logo, navigation links for 'Journals' and 'Books', and utility links for 'Shopping cart', 'Sign in', and 'Help'. Below the header, there are options to 'Purchase' (with an Adobe PDF icon) and 'Export', along with a search bar and an 'Advanced search' link.

The main content area features the journal title 'Acta Metallurgica et Materialia' (Volume 43, Issue 11, November 1995, Pages 3959–3969) and the article title 'Influence of reinforcement fracture on the cyclic stress-strain curve of metal-matrix composites' by J. Llorca, P. Poza. Below the title, a section titled 'Choose an option to locate/access this article:' contains three buttons: 'Check access', 'Purchase', and 'PRIDOBI ČLANEK'. The 'PRIDOBI ČLANEK' button is circled in red. Below it is a 'Get Full Text Elsewhere' button. A 'Show more' link is also present.

On the right side, there are sections for 'Recommended articles' (listing 'An analysis of the influence of reinfo...', 'Prediction of the tensile stress-strai...', and 'Modeling mean stress relaxation in v...'), 'Citing articles (34)', and 'Related reference work articles'.

At the bottom, the abstract begins: 'The cyclic stress-strain curve of a 2618 Al alloy reinforced with 15 vol.% SiC particulates was measured through the incremental step method in the naturally aged and peak-aged conditions. The mechanical'.

# Activation after PRIDOBÍ ČLANEK (Get article) button is selected

The screenshot shows a web browser window with three tabs: 'COBISS.SI - Co-operative O...', 'Influence of reinforcement f...', and 'SFX by Ex Libris Inc.'. The address bar contains the URL: 'metaiskalnik.izum.si/sfxlcl41?ctx\_ver=Z39.88-2004&ctx\_enc=info:ofi/enc:UTF-8&url\_ver=Z39.88-2004&rfr\_id=inf'. The browser interface includes navigation buttons, a search bar, and a bookmarks bar.

The main content area features the 'metaiskalnik' logo on the left and the 'IZUM' logo on the right. Below the logos is a red banner with the 'SFX' logo and the text 'SFX Services for this record'. A language dropdown menu is set to 'English'.

The record details are as follows:

- Title:** Influence of reinforcement fracture on the cyclic stress-strain curve of metal-matrix composites
- Source:** Acta metallurgica et materialia [0956-7151] LLORCA, J yr:1995 vol:43 iss:11 pg:3959 -3969
- Full Text:** Full text available via **Elsevier ScienceDirect** za UNIMB. Year: 1995, Volume: 43, Issue: 11, Start page: 3959. Available from 1995 volume: 43 issue: 1 until 1995 volume: 43 issue: 12. Dostop do revije v okviru Konzorcijev CTK zagotavlja Centralna tehniška knjižnica Univerze v Ljubljani. ## Successful organization of resource sharing

*(In our view) one needs to have:*

- a complete and accurate data on what is there locally and who has it
- a good search engine and sensible presentation of results with direct linking to resource sharing mechanisms
- a well balanced and sensibly composed selection of relevant e-sources nationally agreed upon and carefully re-negotiated
- a willing and pro-active library community which can agree on common grounds well before new cycle of negotiations start
- comprehensive usage statistics and other relevant analytical data
- experienced team of negotiators, facing **providers** of information sources not **predators** of library budgets
- sustainable long-term financing (“small is beautiful” but more is sexier)

## Document Supplier Overview

Rapid participants have access to four document suppliers: the Center for Research Libraries (CRL), CISTI, Linda Hall Library (LHL) and, most recently, Reprints Desk.

CRL is a membership based service and Rapid requests from CRL members automatically flow to CRL.

Use of CISTI, LHL and Reprints Desk is open to all Rapid participants. As of November 2013, CISTI charges Rapid participants \$12.60 plus copyright and libraries are invoiced for the articles. Linda Hall Library charges Rapid participants a flat \$8.00. Billing from LHL is handled via dummy IFM on OCLC. Reprints Desk charges a service fee of \$5.00 plus copyright. Those selecting CISTI and/or Reprints Desk must give the Rapid staff their "maximum cost" amount to ensure that information is properly transmitted to the supplier. With the exception of CRL, requests are sent to document suppliers only after being unfilled by Rapid lenders.

With the exception of CRL, Rapid participants can use any or all of the document suppliers. Participants interested in using Linda Hall Library or CISTI should contact the Rapid staff. Those interested in using Reprints Desk must create an account and should begin by following the Reprints Desk links at the bottom of this page.

Are you interested in using Rapid's newest document supplier, Reprints Desk? If so, the first step is to review the information at the bottom of this page by clicking the "[Reprints Information](#)" link. This information includes details about costs and turnaround time for materials requested from Reprints Desk. Libraries must create an account with Reprints Desk. You can create your Reprints account by completing the information at the "Reprints Sign-Up" link also at the bottom of this page.

## Interested in learning how RapidILL will save your staff time and library money?

## So, what our patrons said ?

“I pray I'll stay at Columbia for my PhD, among many reasons because of the amazing access to data and research that you put in our hands. **You empower us so much, and I think many people take that empowerment you give to us for granted.** Thank you, forever and a day, for expanding my knowledge.”

# Challenges in the Future

- Patrons' expectations grow. (I want everything, NOW!)
- More requests for materials from overseas.
- **COPYRIGHTS** and **LICENSE AGREEMENTS**.
- **E-BOOKS** and **new Digital Media**

UNSHELVED by Gene Ambaum & Bill Barnes

- IFLA Document Delivery and Resource Sharing Standing Committee, maggio 2007
- MAILL (Maryland Interlibrary Loan), 18 ottobre 2007

Se le biblioteche vogliono estendere e promuovere l'accessibilità dell'informazione e continuare ad essere considerate risorse importanti, crediamo che debbano migliorare il loro sistema di fornitura dell'informazione.

Armonizzare le procedure di condivisione delle risorse, le politiche di acquisto e gestione delle raccolte e i sistemi di individuazione e fornitura dell'informazione, riducendo sensibilmente le barriere e i costi del servizio, offrire all'utente opzioni personalizzate di servizio: questi sono punti essenziali per facilitare l'accesso all'informazione.

[http://rethinkingresourcesharing.org/wp-content/uploads/2012/10/manifesto\\_italian.pdf](http://rethinkingresourcesharing.org/wp-content/uploads/2012/10/manifesto_italian.pdf)

# Let's Remember !

“No library in these days can be regarded as self-sufficient. The growing complexity of informational needs makes it more and more necessary to use the resources of other libraries.”

Warren Peck, "Letter to the Editor," The Age (Melbourne, Australia) [April 12th, 1971.](#)

Can anyone advise on which FedEx form should be used for international shipping of ILL? Our mailroom seems to be using FedEx Form 12, and putting what we want to be the insurance value in the declared value of goods. Surely there is some duty-free form for these purposes. Please don't make me have to break down and call FedEx! Thanks! -J (NGA)

    - Electronic Resources Management System (ERMS)

# Status quo

- 55 members (academic & research institutions after latest merges)
- funding partly from the Ministry of Education and partly from NSRF 2007-2013
- agreements with 17 major publishers
- access to ~14400 journals
- many requests from public organizations to join (funded from different Ministries)
- none accepted (beyond the Ministry of Education) due to insecure budgets of those organizations

# 55 Members

- 22 Universities
- 13 Technological Education Institutes
- 14 Research Institutions of General Secretariat for Research and Technology
- National Library of Greece
- Academy of Athens
- Hellenic Parliament Library
- Pedagogical Institute
- National Agricultural Research Foundation
- School of Pedagogical & Technological Education

# Milestones

- Positive
  - 1998: 1st agreement with Elsevier (print & electronic)
  - 2002: moved to e-only
  - 2006: extra funding for backfiles, e-books, reference material
- Negative
  - 2009: delayed agreements
  - 2012: reduction of the budget
  - 2013: ----
  - 2014: 2013-2015 Agreements

## *Years of Agreements*

## *No. of Titles in HEAL-Link Portal*

# The need

- In the last ten years a large number of public organizations have expressed interest to access HEAL-Link's electronic resources.
- The interest derives mostly from public and military hospitals, Higher Military Schools, and also from a few research organizations such as the EFET (Hellenic Food Authority) and National Organization of Medicine.
- Unfortunately, these public organizations that belong to different Ministries, failed to obtain the necessary funds to join HEAL-Link.

# The Service

- In order to overcome this problem HEAL-Link decided to develop this Electronic Interlibrary Loan and Document Delivery Service based on NILDE.
- Public organizations and institutions are served with electronic copies of scientific articles, upon request and only if it is allowed by the terms of the agreements that HEAL-Link signs with publishers.
- Elimination of the cost for becoming active member.

# Aim

- Provide document delivery to Greek organizations funded by the government.
- Exclude private organizations (unless non profit, non commercial).
- Limit to HEAL-Link content.
- Use of open source software for the document delivery service.

# Development Steps (1)

- Identify and study the terms of the agreements regarding interlibrary loan signed by HEAL-Link with the publishers in order to ensure the legitimacy of the service.
- Search literature for similar services by other consortia.
- ILL and Secure Document Delivery Software.
  - Identify
  - Evaluate
  - Select
    - Customize for HEAL-Link, configure and install the selected software.
    - Draft documentation and user manual.

## Development Steps (2)

- Record all public organizations that are eligible to participate.
- Inform all recorded public organizations of the Service developed.
- Design and draft information and educational material regarding the use of the Service.
- Draft policy documents and license agreements for the participating public organizations.
- Start a pilot for one year.

# Terms of the agreements

- The majority of the publishers allow the provision of the subscribed content through interlibrary loan services and secure document delivery services.
- Explicit terms use SDD software (like Ariel).
- Mainly for book chapters and journals backfiles issues the article must be printed, scanned and then sent to the user.
- Important terms allow the possibility of document delivery to non-profit, non-commercial organizations and libraries.

## ILL and SDD Software

- Open-Source software (eliminate the cost of acquisition or subscription to a commercial software).
- Incorporate many of the features of corresponding commercial software.
- Incorporate a module for Secure Document Delivery Service. (Avoid acquisition of SDD software like Ariel)
- Easy to install and feasible to customize.
- Simple and easy to use both for staff and for users.
- Easy and constructive communication and cooperation with the original developers of the software.

## NILDE Selection

- It has been used for more than ten years by more than 700 libraries and 15,000 end users in Italy .
- It is reliable, as during the last decade it has been used to serve more than one million requests by libraries and end users.
- It has a simple and easy to use interface.
- It incorporates all the needed functionalities for the corresponding service.
- Also users can store their data requests , using it as a reference manager.
- It incorporates a module for secure documents delivery. The document is stored on a ftp server and it is deleted automatically after the user retrieves it and prints it.

# Collaboration (1)

- Agreement signed in October 2012.
  - CNR Bologna Research Area President (dr. M. Ravaioli)
  - HEAL-Link Chairman (Prof. Nikolaos Mitrou)
- CNR Bologna Research Area Library provides the source code of NILDE to HEAL-Link.
- Both parties collaborate in the configuration and setup of the new service and in the technical development of new NILDE features.
- HEAL-Link will disseminate the NILDE software benefits among their user community and members.

## Collaboration (2)

- Collaboration agreement on the “dissemination and joint development of NILDE software”
- Aim of the agreement
  - To develop a new HEAL-Link Electronic Document Delivery (EDD) Service in order to provide Public Greek Organizations with articles and book chapters exclusively from e-journals / e-books subscriptions of HEAL-Link.
  - The HEAL-Link EDD Service is one way service. The End Users of the Public Organizations, that are not allowed to access the subscriptions, can make a “Document Delivery Request”, through NILDE and they will receive a copy of the electronic scientific article according to the terms of the corresponding license agreement with the publisher.

# NILDE Customized for HEAL-Link

- Redesigned Homepage.
- Created Usage Guides & Manuals in Greek.
- Greek translation (both for HEAL-Link and original NILDE).
- All functionalities inside NILDE concerning financial assets have been hidden or disabled (during pilot).
- **Only one library (HEAL-Link) performs lending, all other libraries may only borrow.**
- Several other customizations:
  - Various fields removed (hidden) from library and user records.
  - Added explanations steps to registration process.
  - Terms of use, rules & regulation and publishers' terms in Greek.
- SEDD (i.e. Digital Hard Copy) has not been enabled yet.
- The ALPE (licenses) archive is not used.

## So far

- 89 Public organizations registered
  - Public/Military hospitals
  - Public libraries
  - Research institutions from other ministries
  - Military training schools
  - Organizations advisors to the government

## Il progetto Worldcat/OCLC del consorzio CIPE

Guido Badalamenti, Università di Siena  
Antonio Scolari, Università di Genova  
Renato Tamburrini, CIPE

## OCLC e WORLDCAT

- OCLC (Online Computer Library Center) Dublin Ohio, USA: nasce nel 1967, come Ohio College Library Center
- Worldcat è il catalogo in linea di OCLC ed è il più grande OPAC del mondo
- 270 milioni di record, 1,8 miliardi di holdings, 70.000 biblioteche e istituzioni culturali di 170 paesi
- 197 milioni di record con *linked data*

<http://www.oclc.org/en-US/news/releases/2014/201414dublin.html>

- A Worldcat si accede da Google Books attraverso l'opzione "Find in a library"

<http://www.oclc.org/worldcat/default.htm>

## Worldcat local

- rappresenta l'ottimizzazione delle risorse disponibili a livello di library (o di sistema)
- <http://www.oclc.org/worldcatlocal/overview/default.htm>
- Con una sola ricerca gli utenti accedono a tutte le risorse (biblioteche worldcat, cataloghi unici di consorzi, risorse cartacee, digitali, basi di dati, e-journal, e-book, file musicali e video ...)
- Aggiunta di elementi supplementari per supportare la valutazione di pertinenza (es. copertine, indici, recensioni)
- Integrazione con i servizi bibliotecari come ILL e DD
- Nessuna gestione locale HW e SW
- Piattaforme mobile IOS e Android

## I numeri di CIPE

- 11 atenei (Sassari, Genova, Pisa, Firenze, Siena, Modena-Reggio, Parma, Bologna, Padova, Venezia, Ancona)
- 280 biblioteche
- 11 milioni di record in opac

## MOTIVAZIONI DEL PROGETTO CIPE

- Uso crescente da parte degli utenti di strumenti generalisti nei quali la documentazione italiana è poco presente
- Visibilità internazionale per i cataloghi degli atenei e dunque maggiore visibilità internazionale delle monografie italiane, specialmente di ambito umanistico e sociale
- Visibilità del consorzio e promozione dei servizi interni di scambio

## OBIETTIVI

- Internazionalizzazione dei cataloghi con visibilità internazionale del patrimonio bibliografico
- Utilizzazione di un ambiente già attrezzato con *linked data* e VIAF
- Stimolo all'adesione di altri atenei
- Contributo alla valutazione della ricerca italiana anche mediante la visibilità del materiale librario

## RICADUTE TECNICHE

- Feed-back sui cataloghi, miglioramento e intervento sugli errori e sulle incongruenze
- Crescita del livello di standardizzazione dei dati (es. dati Marc in forma codificata, quali codici di paese, di lingua, congruenza delle date, ecc.)
- Incremento delle conoscenze di SW per import-export sempre più fluidi dei dati, e della interscambiabilità dei formati

## RICADUTE ORGANIZZATIVE

- Catalogazione sempre più condivisa, derivata e standardizzata
- Apertura di grandi spazi per il prestito interbibliotecario: già segnalato un aumento di interesse per le nostre raccolte
- La versione italiana di WorldCat è nata a valle dell'accordo con CIPE e quindi del maggiore interesse verso l'area italiana
- Presenza italiana nel board OCLC (Tommaso Giordano dell'IUE)

## STATO DEL PROGETTO

- Siena e Genova: completato il primo scarico e l'ottimizzazione dell'accesso diretto alle copie
- Pisa, Firenze, Padova e Sassari: in fase di avanzata elaborazione
- Gruppo SOL-Sebina: (Bologna, Parma, Modena-Reggio, Venezia, Ancona) in preparazione gli accordi con Data Management. Inizio degli scarichi previsto entro l'estate
- Da osservare che l'adesione a un catalogo unico comporta accettarne le regole, non solo ovviamente di tipo catalografico, ma anche di gestione: questo non è stato facilissimo e si è riverberato sui tempi di effettuazione del progetto, che ci aspettavamo più rapidi e scorrevoli.

## SVILUPPI

- Periodici nativamente in ACNP
- Orizzonte OCLC partner italiani (oltre a CIPE al momento sono presenti in Worldcat il Catalogo Bibliografico Trentino, IUE di Fiesole, Università Cattolica di Milano, Roma3)
- Catalogo comune del consorzio e strumenti di condivisione delle risorse
- Ipotesi di condivisione accademica italiana tramite strumenti dedicati
- Studio delle opportunità ricavabili dagli ambienti Worldcat Local e Worldshare

# CIPE rompighiaccio

- I dati originali restano di proprietà dell'istituzione che li ha prodotti, con le specifiche modalità e gli eventuali obblighi cooperativi a cui l'istituzione è obbligata. L'istituzione può utilizzarli anche in altri contesti.
- Il CIPE, sulla scorta dell'accordo raggiunto, si pone come facilitatore per ulteriori estensioni della partecipazione in Italia
- Nel contratto è previsto fin da ora per gli altri atenei italiani – tipizzati in 3 ordini di grandezza a seconda del FTE- uno sconto rilevante in caso di interesse alla partecipazione

## Istituto Oncologico Veneto IOV IRCCS Library

The “Istituto Oncologico Veneto” (Veneto Oncology Institute - IOV) of Padova was established in **December 2005** and is **the only Cancer Centre in the Veneto Region**

The IOV is an **IRCCS Hospital** (*Italian clinic and research centre*) and is governed by **both Veneto Regional Authorities and the Italian Ministry of Health**

## Istituto Oncologico Veneto IOV IRCCS Library

The **Italian Ministry of Health (MoH)** allocates resources to IRCCS Hospitals on a yearly basis (RC – *Ricerca Corrente grant*), **using a performance-based funding system:**

**55% of the MoH funds are determined by scientific publications**, calculated through the use of a custom Normalized Impact Factor

# IOV in Numbers

- **460** Employees (2013)
- **140** [FTE 100%] Researchers\ Avg. (2006-13)
- **1473** Articles (2006-13)
- **4946,00** Total Impact Factor
- **350** Students (training & PhD fellows 2006-13)

# Library & Scientific Directorate

- *Established as a scientific library in 2005*
- *The IOV Library started its own activities in 2010*

**MISSION: “to meet all our research and patients’ information needs”**

- **Document Delivery, ILL – Inter Library Loan, institutional repository and catalogue**
- **Centralized economic evaluation & management of subscriptions and access**
- **Bibliometrics and research evaluation**
- **Internal research\performance evaluation** field-normalized, FTE-normalized and budget-related indicators
- **Reference and Training**
- **Patient education & Science promotion**

# Library & Scientific Directorate

- Users:
  - Researchers (non academic) & Clinicians, Healthcare Professions, Allied Health professions
  - Researchers (academic), Faculty, Students (in Training, PhD Fellows, Scholarships)
  - Patients, Caregivers, patient advocates
- Librarian:
  - 1 (FTE 50%)
- Scientific Directorate IT:
  - 1 (FTE 50%)
- Scientific Directorate – research administration
  - Tot. employees 3

## Information at 360 Degrees? How to...

- Scientific Directorate has taken the task of providing services to Institute at 360 degrees, but...
  - **Various and complex information needs** of the institute:
    - Research facility;
    - Administrative needs;
    - Healthcare & Public Health research,
    - “Basic” research;
    - Clinical research;
    - Health technology assesment;
    - Research assesment...

## Information at 360 Degrees? How to...

- Scientific Directorate has taken the task of providing services to Institute at 360 degrees, but...
  - **Lack of human and economic resources**
    - Despite increasing number of users and services in these 5 years, human and economic resources are decreasing
  - **“Stop-and-go” policies of recruitment** don't promote access to library services & training activities

# Research Facility Framework

## Information at 360 Degrees? How to...

- **Wide range of scientific e-journals, databases and tools**
- **Proactive role in reducing information overload, both within the administrative and research fields.**
- **Integrated management of information flow and internal processes:**
  - Sharing Human Resource data
  - Budget of hospital units, research groups and administrative units
  - Scientific productivity
  - Employee contracts & Funds
  - Scientometric and Healthcare Indicators
  - Authentication & Access Management

## Information at 360 Degrees? How to...

- **Proactive role in internal TRAINING activities since 2011:**
  - 216 learners
  - 1590 total CME credits
  - 12 editions of (8 hours) "base" course (*use of IOV & BiblioSan tools*)
  - 4 editions (8 hours) "advanced" course (*training in fields as: IRCCS grants, scientific journalism & writing tips, bibliometric indicators and researcher's online tools*)

*Training events were designed with the participation (2011-12) of professionals from established research centres in Padova, such as the IZSV Library or V. Pinali Medical Library - University of Padova*

## Benvenuti nel sistema SIPS

Il sistema SIPS è un sistema informativo per la gestione interna delle pubblicazioni scientifiche dell'Istituto Oncologico Veneto - I.O.V. di Padova, tramite il quale è possibile gestire la base di dati formata dalle pubblicazioni prodotte dai ricercatori di questa struttura. Il sistema software presenta tre utenze distinte per l'accesso: Ds, Utente Bibliometrista e Amministratore.

Titolo	SHARP1 suppresses breast cancer metastasis by promoting degradation of hypoxia-inducible factors <span>PubMed</span>
Rivista	Nature
Anno	2012
Volume	487
Fascicolo	7407
Pag Inizio	380
Pag Fine	384
Abstract	The molecular determinants of malignant cell behaviours in breast cancer remain only partially understood. Here we show that SHARP1 (also known as BHLHE41 or DEC2) is a crucial regulator of the invasive and metastatic phenotype in triple-negative breast cancer (TNBC), one of the most aggressive types of breast cancer. SHARP1 is regulated by the p63 metastasis suppressor and inhibits

UNEUR.2.0. ORDINAMENTO GIURIDICO COMUNITARIO; *Effetto diretto (efficacia diretta) delle norme comunitarie* [ --> lista gerarchica]

La locuzione "vigilanza" viene utilizzata, da tempo e in misura crescente, negli atti normativi nazionali. A tale figura hanno anche fatto ricorso, nel passato, molti autorevoli studiosi del diritto amministrativo. Ma il contenuto della stessa non è risultato - né, tuttora, risulta - agevolmente identificabile. In origine, in un ambito condiviso con l'autarchia, la vigilanza aveva ad oggetto le relazioni rinvenibili nell'ambito del decentramento burocratico, ricomprendendo i controlli esercitati dallo Stato sull'azione di Comuni e Province. Poi, si è aggettivata, divenendo "informativa", "regolamentare" o "ispettiva", così com'è avvenuto nell'ordinamento del credito e del risparmio. Questa speciale forma d'ingerenza si è sviluppata, in seguito, nei rapporti fra Ministero e soggetti pubblici aventi ad oggetto un'attività d'impresa, mediante l'impiego di direttive. La funzione vigilatoria ha investito l'esercizio di attività di diritto privato, di rilevante interesse pubblico, garantendo l'autonomia riconosciuta ai vigilati. Proprio questa garanzia sembra rappresentare il nucleo unitario della funzione, pur in presenza di una sua articolazione frammentata, correlabile a gradi di autonomia differenziati attribuiti all'ente sottoposto all'ingerenza. Nel quadro descritto trovano cittadinanza, oltre alle fondazioni, specialmente bancarie, le Camere di commercio, le autorità portuali, gli enti previdenziali, le Università e gli ordini professionali. Lo sviluppo della funzione, pertanto, risulta valorizzato dalla diffusione, specie in tempi recenti, di autorità amministrative indipendenti, intestatarie di poteri definiti neutrali. Con il che la vigilanza si è dovuta coniugare con la regolazione, in uno spazio dominato dal diritto dell'Unione europea. Le autorità di vigilanza europee (AEV) costituiscono, dunque, il frutto di una "cultura comune della vigilanza", che dischiude effetti, in larga parte, ancora in via di gestazione, in grado di accelerare il processo d'integrazione comunitaria. [abstract tratto dalla rivista]

Sommario: 1. Vigilanza degli enti pubblici: una nozione a contenuto variabile. - 2. Il rapporto vigilatorio fra controllo e annullamento d'ufficio, gerarchia e vigilanza. - 3. Poteri di vigilanza del governo: alla ricerca di una alterità fra vigilanza e gerarchia. - 4. Autonomia e vigilanza: camere di commercio, autorità portuali, università e ordini professionali. - 5. Vigilanza "economica" e attività sanzionatoria: tratti distintivi del rapporto vigilatorio. - 6. Verso una vigilanza "europea": organizzazione "a rete", "regulators" e "technicalities". - 7. (Segue): "authorities" e regolazione: conclusioni.

English Abstract: The term "supervision" has been used in national legal acts for some time, and to an increasing extent. In the past, several scholars of administrative law have resorted to such a formulation. However, its content was not (is still not) easily identifiable. Originally, in a context shared with autarchy, supervision concerned the reports on bureaucratic decentralization, including the controls exercised by the State over the action of Municipalities and Provinces. It then evolved, becoming "informative", "regulative" or "inspective", as occurred in the legal framework on credit and savings. Consequently, this particular form of interference also developed in the relations between the relevant Ministry and the public bodies for business activities, through the use of directives. The supervisory function then went on to affect the pursuit of activities of private law having fundamental public interest, thus ensuring the autonomy of the supervised bodies. It is precisely this guarantee that appears to be at the core of the supervisory function, despite its fragmented articulation, correlated to the different degrees of autonomy granted to the entity subjected to interference. This framework contains, in addition to foundations (especially banking foundations), chambers of commerce, port authorities, social security institutions, universities and professional associations. Therefore, the development of the function is enhanced by the diffusion, especially in recent times, of independent administrative authorities, that hold powers defined as neutral. Supervision has thus had to combine with regulation in a space dominated by European Union law. European Supervisory Authorities (ESAs) are, therefore, the result of a "common supervisory culture," that appears largely to be as yet in its gestational phase, but that nevertheless can accelerate the process of Community integration. ## IL PRESIDENTE DELLA REPUBBLICA

Visti gli articoli 76, 87 e 117, secondo comma, lettera l), della Costituzione;

Vista la legge 18 giugno 2009, n. 69, ed in particolare l'articolo 44, recante delega al Governo per il riassetto della disciplina del processo amministrativo, nel quale, al comma 4, e' previsto che il Governo puo' avvalersi della facolta' di cui all'articolo 14, numero 2), del testo unico sul Consiglio di Stato, di cui al regio decreto 26 giugno 1924, n. 1054;

Vista la nota in data 8 luglio 2009 con la quale il Governo, avvalendosi della facolta' di cui all'articolo 14, numero 2), del citato testo unico n. 1054 del 1924, ha commesso al Consiglio di Stato la formulazione del progetto del suddetto decreto legislativo;

Visto il decreto del Presidente del Consiglio di Stato in data 23 luglio 2009, con il quale la formulazione di detto progetto e' stata deferita ad una commissione speciale e ne e' stata stabilita la composizione;

Visto il progetto del decreto legislativo recante il «codice del processo amministrativo» e le relative norme di attuazione, transitorie, di coordinamento e di abrogazione, redatto da detta commissione speciale e trasmesso al Governo con nota del Presidente del Consiglio di Stato in data 10 febbraio 2010;

Vista la deliberazione preliminare del Consiglio dei Ministri, adottata nella riunione del 16 aprile 2010;

Acquisito il parere reso dalle competenti Commissioni parlamentari; Vista la deliberazione del Consiglio dei Ministri, adottata nella riunione del 24 giugno 2010;

Sulla proposta del Presidente del Consiglio dei Ministri;

E m a n a

il seguente decreto legislativo:

Art. 1

Approvazione del codice e delle disposizioni connesse

-  Atto e procedimento amministrativo comunitario (D3518)
-  Coamministrazione (amministrazione comunitaria e amministrazioni nazionali) (D0711)
-  Diritto amministrativo europeo (D1399)
-  Organizzazione (D3170)
-  Personale (funzionari comunitari) (D3305)

 **UNEUR.1.2. COOPERAZIONE RAFFORZATA** (S1510)

  **UNEUR.2. COMUNITÀ EUROPEE (PRIMO PILASTRO)** (S1511)

 **UNEUR.2.0. ORDINAMENTO GIURIDICO COMUNITARIO** (S1512)

-  Diritti fondamentali nell'ordinamento comunitario (D1371)
-  Effetto diretto (efficacia diretta) delle norme comunitarie (D1646)
-  Primato (supremazia) del diritto comunitario (D3465)
-  Responsabilità dello Stato membro per violazione del diritto comunitario (D3945)

 **UNEUR.2.1. NORME COMUNITARIE** (S1513)

-  Accordi modificativi ed integrativi dei Trattati (D0048)
-  Atti comunitari atipici (D0350)
-  Comunicazioni (D0828)
-  Costituzione europea (D5002)
-  Decisioni (D1223)
-  Direttive (D1334)
-  Giurisprudenza comunitaria (D2103)
-  Principi generali di diritto (D3475)
-  Procedimenti di formazione degli atti comunitari (D3513)
-  Raccomandazioni e pareri (D3718)
-  Regolamenti (D3869)
-  Soft\_law (D4358)
-  Trattati istitutivi (D4723)

 **UNEUR.2.2. CITTADINANZA DELL'UNIONE EUROPEA** (S1514)

 **UNEUR.2.3. FINANZIAMENTO DELLE COMUNITÀ EUROPEE** (S1515)

-  Bilancio comunitario (D0521)
-  Controllo del bilancio (D1079)
-  Entrate (risorse proprie) (D1712)
-  Frodi comunitarie (tutela degli interessi finanziari della Comunità) (D1973)

## Periodici e web

- funzioni tradizionali di una rivista scientifica:
    - ✓ registrazione,
    - ✓ certificazione,
    - ✓ disseminazione,
    - ✓ archiviazione [Rosenberg e Geurts, 1997]
  - il web: modifica modalità di ricerca, condivisione, pubblicazione, accesso all'informazione da parte di chi fa ricerca... [non solo pdf online...]
  - ... è una sfida per i professionisti
- 

# Il mercato anelastico

- il mercato della comunicazione scientifica è anelastico (non vige domanda/offerta)
  - interamente sostenuto dagli stessi attori (ricercatori) come
    - autori
    - revisori
    - lettori
  - oligopoli editoriali regolano prezzo e diritti di accesso: controllo esclusivo, barriere alla disseminazione, difficoltà di riuso a causa della cessione dei diritti da parte degli autori
  - sistema disfunzionale: ogni ente paga la propria ricerca 4 volte (stipendio, finanziamento, abbonamento, riuso)
- 

# Open Access

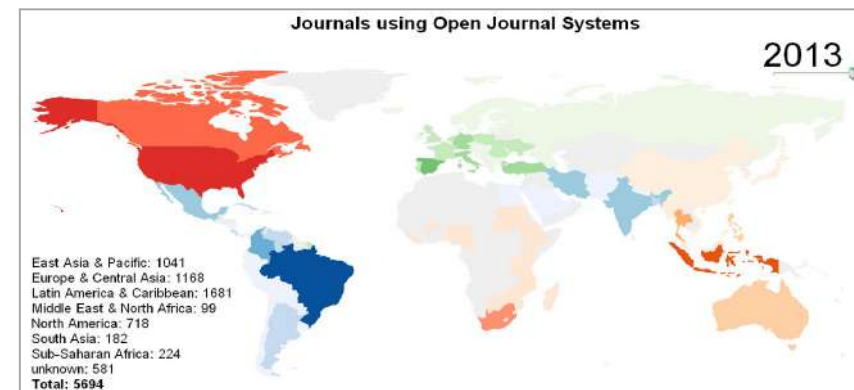

- principio: la ricerca finanziata con fondi pubblici deve essere pubblicamente disponibile
- le due vie: green (deposito) e gold (pubblicazione)
- abbatte barriere di accesso (non di qualità né di paternità intellettuale)
- massimizza la disseminazione e la visibilità (aumentano le citazioni)
- permette circolazione immediata delle idee
- garantisce il riuso (i diritti sono dell'autore)
- consente text mining/data mining
- consente nuove forme di peer review più trasparente
- consente nuove misure di uso (complementari)

# Periodici e open access

- DOAJ, Directory of Open Access Journals: 9.714 riviste da 133 paesi

- software open source:
  - OJS, Open Journal System: circa 6.000 riviste
  - Lodel/Revue.org: 402 riviste, progetto globale: Open Edition

**AlmaDL Journals**

Since 2001, **AlmaDL**, the Digital Library Sector of the Documentary and Departmental Division, has offered technical and professional support to the University of Bologna, making electronic collections available online and providing digital repository and e-publishing services. In particular, **AlmaDL** is dedicated to University of Bologna based open access journals. It helps the academic editorial teams of scientific journals publish online and open access new digital born publications or the digital versions of traditional print serials that intend to harness the web to spread their diffusion and increase their international scale.

**Almatourism - Journal of Tourism, Culture and Territorial Development**

*Almatourism - Journal of Tourism, Culture and Territorial Development* is an electronic journal of the Scientific and Didactical Campus of Rimini and the Sciences of the Alma Mater Studiorum, University of Bologna. It is an innovative platform for study and research on culture and territorial development fields regarding tourism. Articles are published in English. An English translation is provided for articles originally written in other languages.

[VIEW JOURNAL](#) | [CURRENT ISSUE](#) | [REGISTER](#)

**Antropologia e Teatro. Rivista di Studi**

*Antropologia e Teatro* (Anthropology and Theatre) is concerned in opinions and discussions on both Anthropology and Performing Arts. The review sees a denominator between the fields: correct and scientific exposition of the topics.

piattaforme editoriali di qualità, offrono servizi a valore aggiunto e strumenti utili sia alla disseminazione del contenuto sia alla valutazione della ricerca

# Funzioni / 1

## REGISTRAZIONE

- qualità dei metadati
- responsabilità scientifiche, editoriali, redazionali e autoriali dichiarate
- identificatori persistenti: ISSN, DOI, NBN
- catalogazione in ACNP
- citazioni esportabili nei diversi stili citazionali o mediante reference manager systems
- indicizzazione automatica grazie al protocollo OAI-PMH da parte di aggregatori e portali nazionali e internazionali
- puntualità della pubblicazione grazie a un workflow snello; possibilità di pubblicare via via (poi RSS feed)

## Funzioni /2

### CERTIFICAZIONE

- comitati e direzione scientifica dichiarati
- codice etico (COPE like)
- processo di sottomissione e peer review dichiarato, documentabile e trasparente
- calcolo automatico delle rejection rates
- possibilità di avviare un confronto diretto con le comunità di riferimento grazie a funzioni di commento
- pubblicazione dei dati della ricerca associati all'articolo (riproducibilità, riuso, verifica...)

# Funzioni / 3

## DISSEMINAZIONE

- ottima visibilità:
  - protocollo OAI-PMH consente harvesting da parte dei motori di ricerca e servizio di aggregazione (Google Scholar, Worldcat)
  - plugin specifici di OJS favoriscono inclusione in banche dati, servizi di indicizzazione e agenzie per la gestione di PI  
es. export verso DOAJ; Datacite; Registro NBN
  - RSS feed per lettori registrati
- refbacks traccia l'impatto
- condivisione su social networks (Twitter, Tumblr)
- condivisione su academic social networks (Academia.edu, Mendeley)

# Funzioni /4

## ARCHIVIAZIONE

- mission delle biblioteche: garantire la conservazione e l'accesso nel tempo
- convenzioni:
  - deposito legale in Magazzini Digitali [AlmaDL partner dal 2004, nuova convenzione 2012],
  - Clocks, Portico, Locks...
- identificatori persistenti: NBN [National Bibliographic Number], che ha un valore aggiunto perché collegato al deposito legale

# Servizi a valore aggiunto / 1

- **registrazione dei downloads** (web usage indicator) secondo standard COUNTER
- AlmaDL ha creato anche la **pagina di Wikipedia** per alcune riviste di classe A che hanno legami con altre voci enciclopediche (rivista *Conservation Science in Cultural Heritage*)

## Servizi a valore aggiunto / 2

- **implementazione del plugin ESME (*Enhanced Journals...Made Easy!*)** per la creazione di **enhanced publications** (articolo + dati + video + immagini + mappe...)
- **implementazione del bookmarklet Altmetrics** per “seguire le tracce” dell’articolo sul web (Twitter, Facebook, Mendeley, blogs...)

**Trieste**  
**22-23 maggio 2014**

# **Tavola Rotonda I servizi bibliotecari e la valutazione della ricerca: una collaborazione possibile?**

Moderatore: Ivana Truccolo

## **PARTECIPANTI:**

- Nicola De Bellis, Biblioteca Medica, Università di Modena e Reggio Emilia**
- Andrea Bonaccorsi, Consiglio Direttivo ANVUR**
- Maurizio Florio, Servizio Risorse Elettroniche di Ateneo, Università di Trieste**
- Elio Padoano, Dipartimento di Ingegneria e Architettura, Università di Trieste**
- Paola Galimberti, Ufficio pianificazione organizzativa e valutazione, Università di Milano**
- Anna Maria Tammaro, Dipartimento di Ingegneria dell'Informazione, Università di Parma**
- Sergia Adamo, Commissione Valutazione Ricerca, Università di Trieste**

## **Processo di valutazione della produttività scientifica**

**- strumenti tradizionali usati: impact factor, H index e i database citazionali in genere, Alt-metrics...**

**Finora piuttosto trascurati indicatori ricavabili da:**

- sistemi ACNP/NILDE**
- statistiche di accesso ai titoli**
- le richieste di dd per le varie riviste**
- download degli articoli dei periodici elettronici**

- **Catalogo nazionale periodici è fonte autorevole per la descrizione controllata dei periodici: sottoutilizzata?**
- **i diversi Ministeri usano logiche analoghe in ambito di valutazione della ricerca, ma azioni diversificate in considerazioni dei diversi fini**
- **possibili “economie” e confronti fra Ministeri anche nell’acquisizione condivisa dei database citazionali?**

## **Le Biblioteche e i bibliotecari**

**Professione Bibliotecario: ha/deve avere le “Competenze, Abilità, Conoscenze” (in gergo Norma Tecnica UNI elaborata in base a L 4/2013) per svolgere attività tecnica di valutazione della ricerca (supporto a...)**

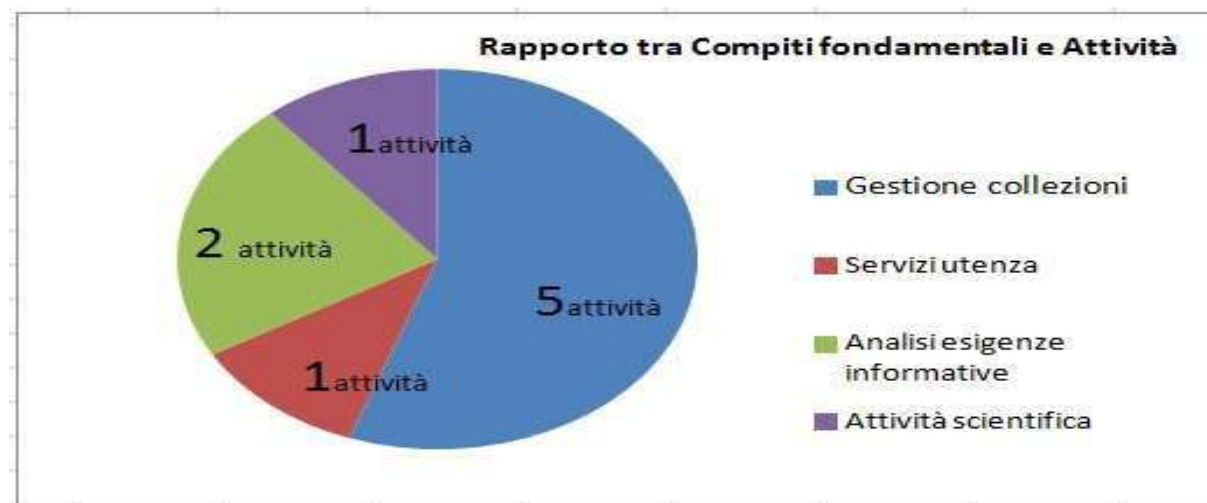

**Le Biblioteche devono occuparsi di “cose che contano”, utili all’organizzazione e agli utenti di riferimento...**

## Professione Bibliotecario

### Analisi critica della Bozza di Norma Tecnica UNI 4 compiti/9 attività, squilibrio fra le stesse

Fonte: L. Testoni, La bozza di norma UNI sulle competenze dei bibliotecari. Memo su alcune criticità. Notiziario AIB, Sezione Liguria, 23(2), 2013

## Domanda 1

Esiste, a Vostro parere, un terreno di possibile collaborazione fra ciò che si muove a livello governativo, nei vari ambiti, e quello che si muove nelle biblioteche italiane, in tema di valutazione della ricerca e supporto alla valutazione?

Se sì, su quali elementi si basa?

Se no, quali sono i motivi/vantaggi/criticità/eventuali controindicazioni per entrambe le parti?

## Domanda 2

Ritenete ci possa essere spazio per estendere la collaborazione fra biblioteche e ambiti governativi in tema di valutazione (a meno che non vi siano "controindicazioni")? Quali sono, a Vostro parere, obiettivi e idee pratiche per concretizzare tale estensione di collaborazione?

**GRAZIE!**

## ... e per la valutazione della ricerca?

- nelle aree non bibliometriche: mancanza di dati e indicatori definiti
- possibili **servizi utili**:
  - registrazione dei downloads
  - metriche alternative
  - identificatori persistenti
  - inclusione in banche dati
  - tracciabilità dell'intero workflow di peer review

**GRAZIE!**
